MOST POPULAR

Growth

ONLINE STORE

GHS 5,000

one-off · typical build 2–3 weeks

Everything in Starter, plus a working store that takes payments while you sleep.

- ✓ Everything in Starter
- ✓ Online store: products, cart, checkout
- ✓ Mobile Money + card payments (Moolre / Paystack)
- ✓ Order confirmation emails + WhatsApp alerts
- ✓ Upload up to 20 products, stock tracking
- ✓ Blog / news section you can publish to
- ✓ Discount codes and delivery options
- ✓ Admin training + 3 months post-launch support
- — Custom app logic and user accounts

Start with Growth

Premium

WEB APP

GHS 7,000

one-off · typical build 3–4 weeks

Everything in Growth, plus the custom system your business actually runs on.

- ✓ Everything in Growth
- ✓ Custom web app: bookings, portal or dashboard
- ✓ User accounts with booking / order history
- ✓ Role-based access for staff
- ✓ Availability calendar and approval workflows
- ✓ Advanced SEO, analytics and speed tuning
- ✓ Installable app experience (PWA)
- ✓ Admin training + 6 months priority support

Start with Premium

*Within a sensible page count for your project. Extra features are quoted before we build them, never after. Prices in Ghana cedis (GHS), one-off — no monthly lock-in, and you own the code.

Every package

Included as standard.

- ✓ 1-year domain, hosting, SSL and 3 branded business emails
- ✓ Mobile-first responsive design
- ✓ WhatsApp enquiry integration
- ✓ Content upload and image optimisation
- ✓ Notification / email template setup
- ✓ Admin training before handover
- ✓ Post-launch support window
- ✓ You own the website, code and data

Process

Precision in every step.

01

Discovery & scope

A short call about your business, customers and goals. You get a fixed quote, a page plan and a launch date — in writing.

02

Design & content

I design the key pages and gather your content — photos, text, prices. You review once, we agree, we build.

03

Build & integrate

Development, payments, forms, SEO and speed work. You get a private link to follow progress and leave feedback.

04

Launch & support

We go live, I train your team, and I stay on call for your support window — 1, 3 or 6 months depending on package.

Good to know

Straight terms.

- Features not listed are treated as scope extensions and quoted separately.
- Project timing depends on timely feedback, content delivery and approvals.
- You provide content, images, business details and any payment credentials on time.
- Third-party fees (payment gateway, SMS gateways, external services) are billed to you at cost.
- Commercial terms, including deposit and payment schedule, are confirmed in writing before kickoff.

Next step

Have a project in mind?

Tell me what you're building — you'll get a fixed quote, a timeline and a straight answer.
